

Understanding the Game of Soccer

The sport soccer is a sport that has many levels to it. The levels also depend on where you live. If you wanna play college soccer you need to play at a high level of soccer at a young age. The type of levels here in the United States is NPL (National Premier League), ECNL (Elite Clubs National League), EA (Elite Academy League), and the highest level is MLS Next (Major League Soccer). Some kids don't get to play at the highest club soccer level because of the money. For club soccer teams you pay around more than one thousand dollars. In Europe clubs are free because there's a lot of talent there unlike here because soccer isn't the main sport in the United States. So those are the levels in soccer. The rules in soccer are really simple and easy to follow and learn. Some rules are offsides, throw-ins, goal kick, corner kick, fouls, free kicks or penalties, and kickoff. All these rules are really easy to understand. Like throw-ins are when the ball goes out of play, so you throw it back in. There aren't many rules in soccer, so that's why it's really easy to learn. For soccer you need to be good at passing, shooting, making plays, and defending. Some skills you need to have are dribbling, passing, heading, ball control and much more. Also you need Physical training like speed, agility, strength. There is a lot of history in soccer. Soccer was first begun in England in the 1800s. English schools and clubs started to make rules for how the sport should be played. Now soccer is one of the most known sports in the world. One of the best tournaments in soccer is the World cup that happens every 4 years. The last one that happened was in 2022. The winner of that World Cup was Argentina. They played against France in the final. In that game Argentina and France were tied the whole game which led to penalties which Argentina won. The next world cup happening is in 2026 during the summer, so it's pretty close. The world cup has about 1.5 billion people that watch it every year. The world cup catches a lot of people's attention everytime it happens. Lastly, that's the understanding of soccer with a couple facts in it. Soccer is one of the best and funniest sports in the world.
